A Message from Our Chairman

Dear Valued Partners and Customers,

In the world of food, quality isn't just a goal—it's a journey. At Jadli Foods India Private Limited, we've been on this journey since 1999, and what a remarkable adventure it has been.

From our roots as a family enterprise to our current standing as a global player, our growth tells a story of passion, perseverance, and an unwavering commitment to excellence. Today, we proudly serve over 250 clients across more than 55 countries, spanning Europe, North America, the Middle East, Far East, and Africa.

Our secret? It's simple:

- We never stop improving.

- We listen to our customers.

- We're passionate about our products.

These principles guide everything we do, from our state-of-the-art facilities in North and South India to our partnerships with over 3,000 farmers who share our vision.

But numbers only tell part of our story. The real magic lies in the trust we've built. When you choose Jadlifoods, you're not just getting a product—you're getting a promise. Our promise of premium quality is infused in everything we produce from farm to table.

As we look to the future, we remain committed to being more than just a supplier. We aim to be your trusted partner, supporting your business with the reliability and quality you deserve.

Thank you for being part of our journey. Here's to many more years of shared success and satisfaction.

Warm regards,

Dr Raghav Jadli
Chairman, Jadli Group of Companies

About Jadli Foods

Established in the Year 1999 by Food technologist Dr. Raghav Jadli. Exporter and Manufacturer of Fruit Pulp/Puree and Concentrate of various kind of fruits like Mango, Guava, papaya, tamarind, pineapple and Tomato paste. IQF Fruits and Vegetables like IQF Mango Dice, IQF Peas, IQF Corn, Mixed Vegetables, etc. Two Manufacturing units situated in South India and North India. Presently exporting to more than 57 Countries.

Our Mission

Our mission is to empower local farmers by minimizing crop waste. We achieve this by converting fruits and vegetables into high-quality Food products like fruit pulp and concentrate, preserving their natural taste and nutritional value. Our commitment extends to meeting the requirements of the Global Food Industry for their intermediate products, like Fruit Pulp, Concentrate and Paste to ensure long-term storage and facilitate future consumption.

Our Vision

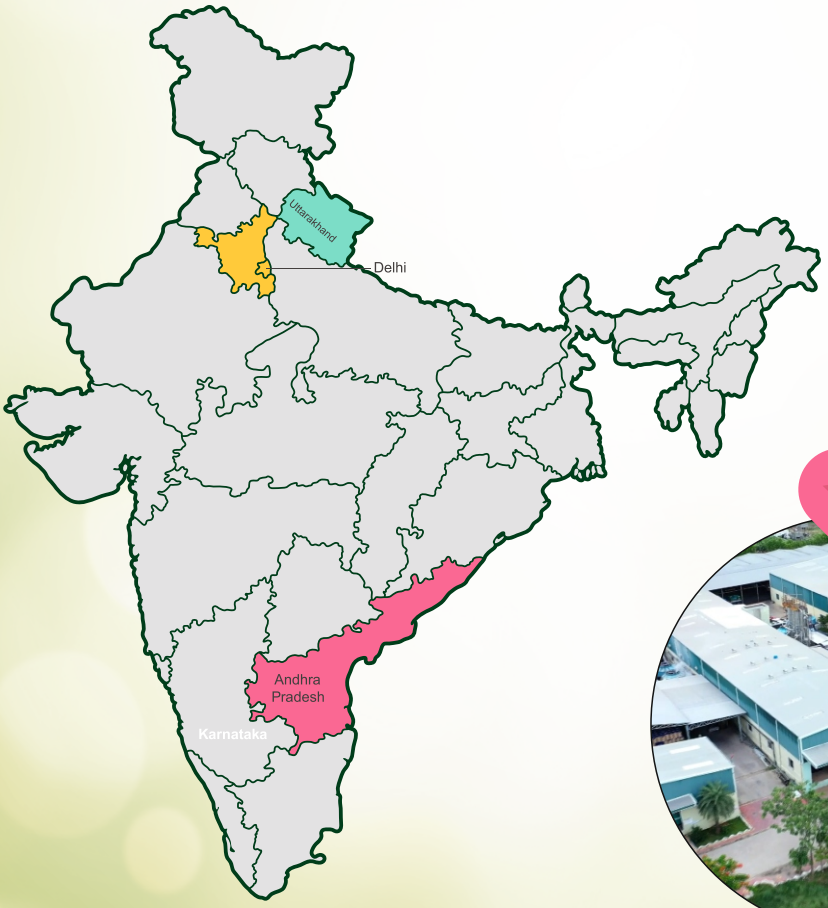

As we embark on our mission, we aspire to become a global leader in the Fruit Pulp and Concentrate industry. Our vision is to achieve this by optimizing production through the integration of cutting-edge technology, advanced machinery, and the utilization of the finest quality fruits.

Food Safety, Quality & Certification

Our commitment to quality and safety makes us a leader in the food industry. We implement rigorous quality control at every stage, from raw ingredients through finished products. We have built our reputation on adherence to the strictest quality control at every step, setting our products apart in the market.

Our in-house central and microbiology labs utilize advanced equipment to ensure ideal metrics for appearance, texture, consistency, color, acidity, and other attributes. We verify key indicators like brix levels, pH, and consistency across multiple production phases - after initial fruit receipt, following incubation periods, post-manufacturing, and through ongoing shelf life. This unrivalled attention to detail enables us to meet the most stringent industry guidelines.

Our safety management system complies with FSSC 22000 guidelines. Our quality team oversees assessments during incubation periods and conducts random quality testing for continuous improvement.

By infusing quality checks throughout our processes and investing in food safety infrastructure, we deliver exceptional products our customers can trust. We know exceptional products begin with exceptional processes and integrity. When customers choose our product, they can trust they are getting the highest levels of quality and care. Our approach cements both our leadership and reputation in the food production
